Employee Leave Policy

Dummy training document | Effective 1 January 2026

Purpose and Leave Types

This fictional policy describes casual leave, sick leave, earned leave, and unpaid leave. Availability and approval depend on eligibility, applicable law, and current HR rules.

Example Leave Allowances

For this training example only, a full-time employee may be allocated 12 casual leave days and 12 sick leave days per calendar year. These are dummy values for testing retrieval.

How to Request Leave

Employees should submit a request through the approved leave portal or HR process. Include leave type, start date, end date, and a reason when required. Wait for approval.

Sick Leave and Emergencies

If illness or an emergency prevents advance notice, notify the manager as soon as practical and follow the HR documentation process. Share medical information only through approved confidential channels.

Approval and Questions

A submitted request is not automatically approved. The authorized approver reviews coverage, eligibility, and policy requirements. Example contact: hr@example.invalid.

Disclaimer

This is fictional sample data for demonstrating document ingestion and RAG. It is not legal advice or a real employment policy.
